

Diploma In

Accounting & Business

LEVEL 4 & 5

PROGRAM OVERVIEW

Level 5 diploma in accounting and business courses from ASTI equips you with a robust understanding of accounting and business management including management accounting, financial management, entrepreneurship, strategic planning, business law, marketing, and the international business environment. You will learn valuable transferable skills such as numerical analytical methods and get hands-on experience with industry-standard accounting and software packages.

Whether you are just starting out in your career or looking to enhance your existing skills, our courses will provide you with the knowledge and expertise you need to succeed. Our courses are taught by experienced professionals who have real-world experience in accounting & business. They will provide you with the practical insights and hands-on-experience that will help you to apply what you will learn in the class room to real-life situations.

AIMS AND OBJECTIVES

This program from ASTI aims at creating a well-rounded professional understanding of both the operations of a business and its finances. In this program, you will develop an interdisciplinary perspective on the management of business organizations and build specialized knowledge and skills in financial and management accounting. Our accounting courses are designed to provide you with the knowledge and skills you need to succeed in the world of finance and business.

We develop each program by designing modules that grow your abilities towards the learning outcomes and help you to explain what you can offer to employers. Accredited by a number of professional bodies, this academically challenging and vocationally relevant level 5 diploma program from ASTI is an ideal stepping stone into careers in accountancy and management.

UK LEVEL SYSTEM

PROGRAM MODULES

Level 5 Accounting & business diploma program from ASTI is to provide learners with the knowledge and skills required by a middle or senior managing position in an organization, and who may be involved in managing organizational finances, investment, and risk. From banking to manufacturing, from huge service industries to micro businesses, the ability to manage, plan and account for money is still the ultimate measure of business success and the key driver of growth. You will be equipped with the necessary skills to use and apply accounting techniques and concepts in the workplace.
